

Mother's Day Flower Craft

Supplies Needed:

Construction Paper

Scissors

Glue

Step One

Fold a piece of green paper in half, long ways.

Cut strips along the folded edge, about $\frac{2}{3}$ to the top of the paper.

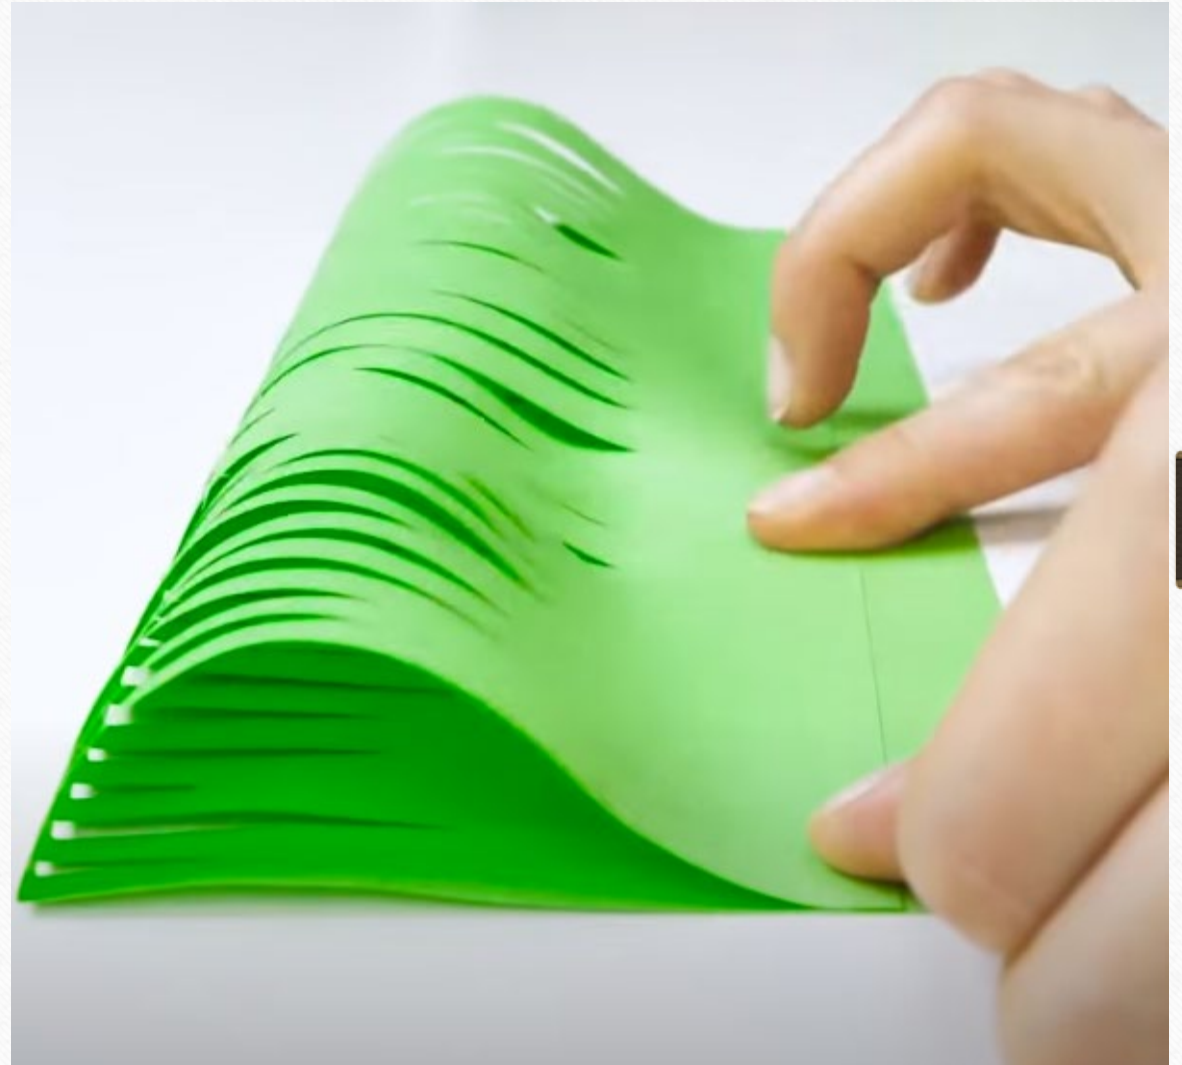

Step Two

Open up the paper and glue along the edge of one side.

Step Three

Fold the paper over and glue down about an inch from the top of the other side.

Step Four

Once you have glued the two sides together, start at one end and roll the paper together.

Step Five

Once paper is rolled up, glue or tape the bottom together so that it stays in place.

Step Six

Cut out flowers and glue them to the top of the stems.

Now you have a beautiful bouquet of flowers for your mother.

**Happy
Mother's
Day!**
