# EMERGENCY OPERATIONS PLAN

Village of Pinehurst

## FOREWORD

---

The Village of Pinehurst has adopted the National Incident Management System (NIMS) for incident management. Elements of which are essential to efficient management of emergencies and disasters that will involve local, state and federal response agencies. The purpose of the NIMS is best summed up in Homeland Security Presidential Directive #5 (HSPD-5). This directive states that *"to prevent, prepare for, respond to, and recover from terrorist attacks, major disasters, and other emergencies, the United States Government shall establish a single, comprehensive approach to domestic incident management. The objective of the United States Government is to ensure that all levels of government across the Nation have the capability to work efficiently and effectively together, using a national approach to domestic incident management. In these efforts, with regard to domestic incidents, the United States Government treats crisis management and consequence management as a single, integrated function, rather than as two separate functions"*.

Under NIMS criteria the Village of Pinehurst has:

- Adopted the Incident Command System (ICS 200).
- Provided NIMS training through the NIMS Awareness Course.
- Determined which NIMS requirements already have been met.
- Developed a strategy and timeframe for full NIMS implementation by FY 2007.

This plan does not attempt to define for each agency how to perform the tasks, only the framework. The manner in which the tasks are to be performed is contained in the agency's Standard Operating Guidelines. This document contains Standard Operating Guidelines, memorandums of understandings, organizational charts, and other checklists.

This plan meets the requirements of FEMA planning guidance, CPG 1-8, CPG 1-8A, NRT-1 and the legal responsibilities identified in North Carolina General Statutes Chapter 166-A. It is intended that this plan, in conjunction with the implementing document, be used by the response organizations to obtain maximum use of existing resources, organizations and systems in their response to emergencies and disasters that could and/or have occurred in the Village. The plan is a realistic reflection of the way emergency response will be carried out when an event occurs, and all agencies tasked under this plan contributed to its development.

This plan, upon approval by the Village Council, rescinds all previous emergency operations plans.
