

Public Input Meeting April 13, 2016

Village Acres Sidewalks & Street Lights

Agenda

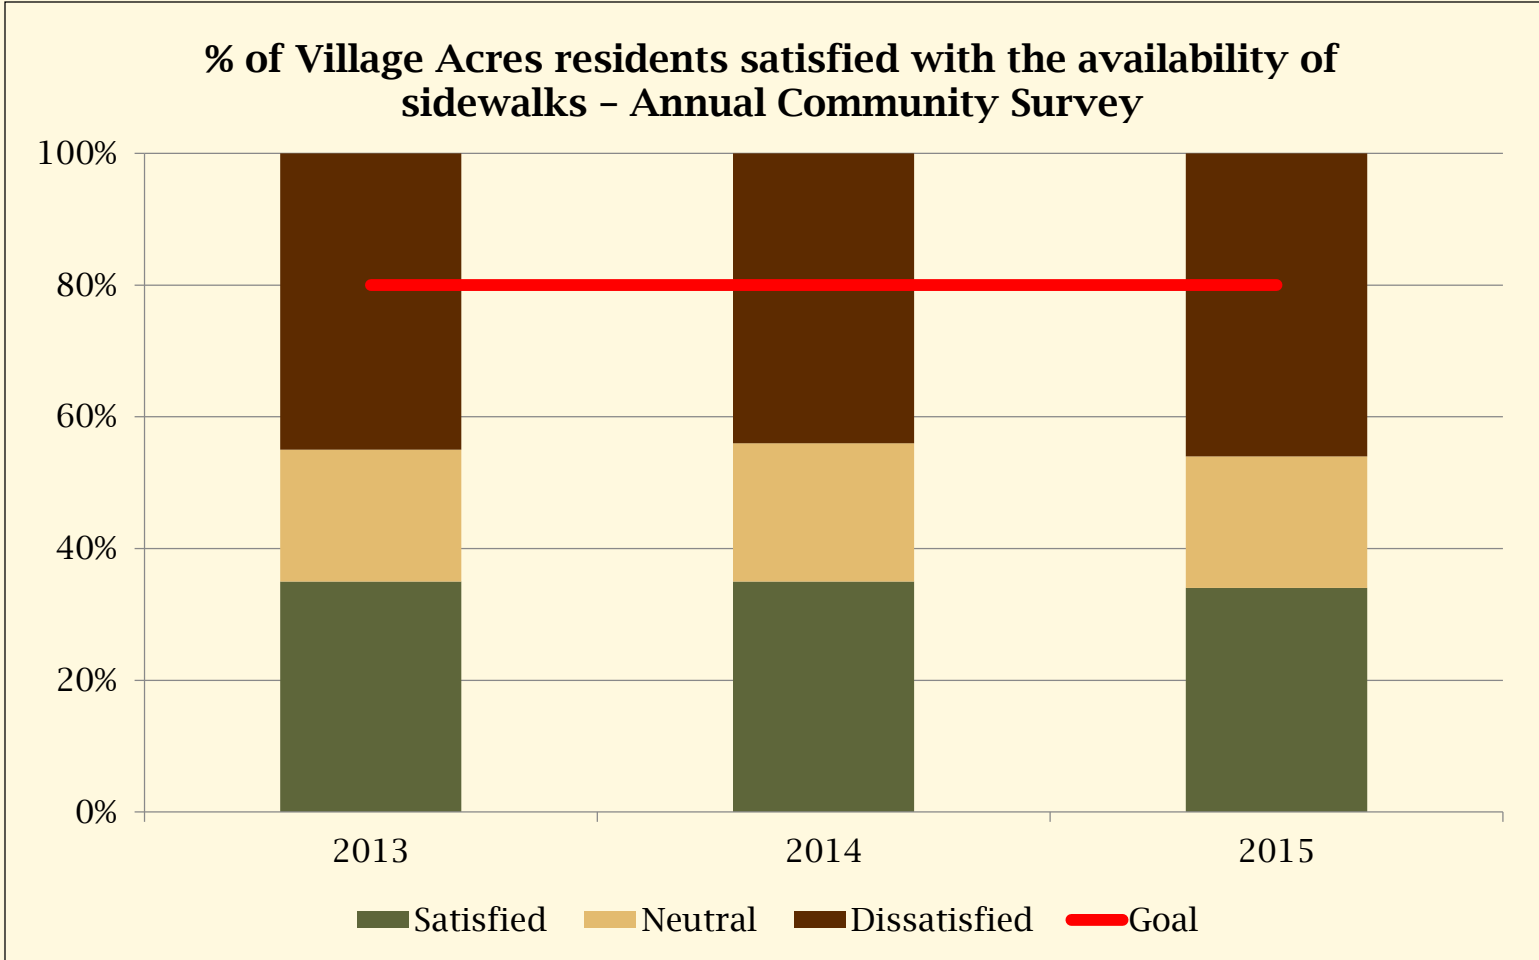

1. Review the results of the March 2016 Village Acres Survey on Sidewalks and Streetlights
2. Discuss the Spring Lake Drive sidewalk project planned for FY 2017
3. Discuss street lighting in Village Acres
4. Comments from attendees

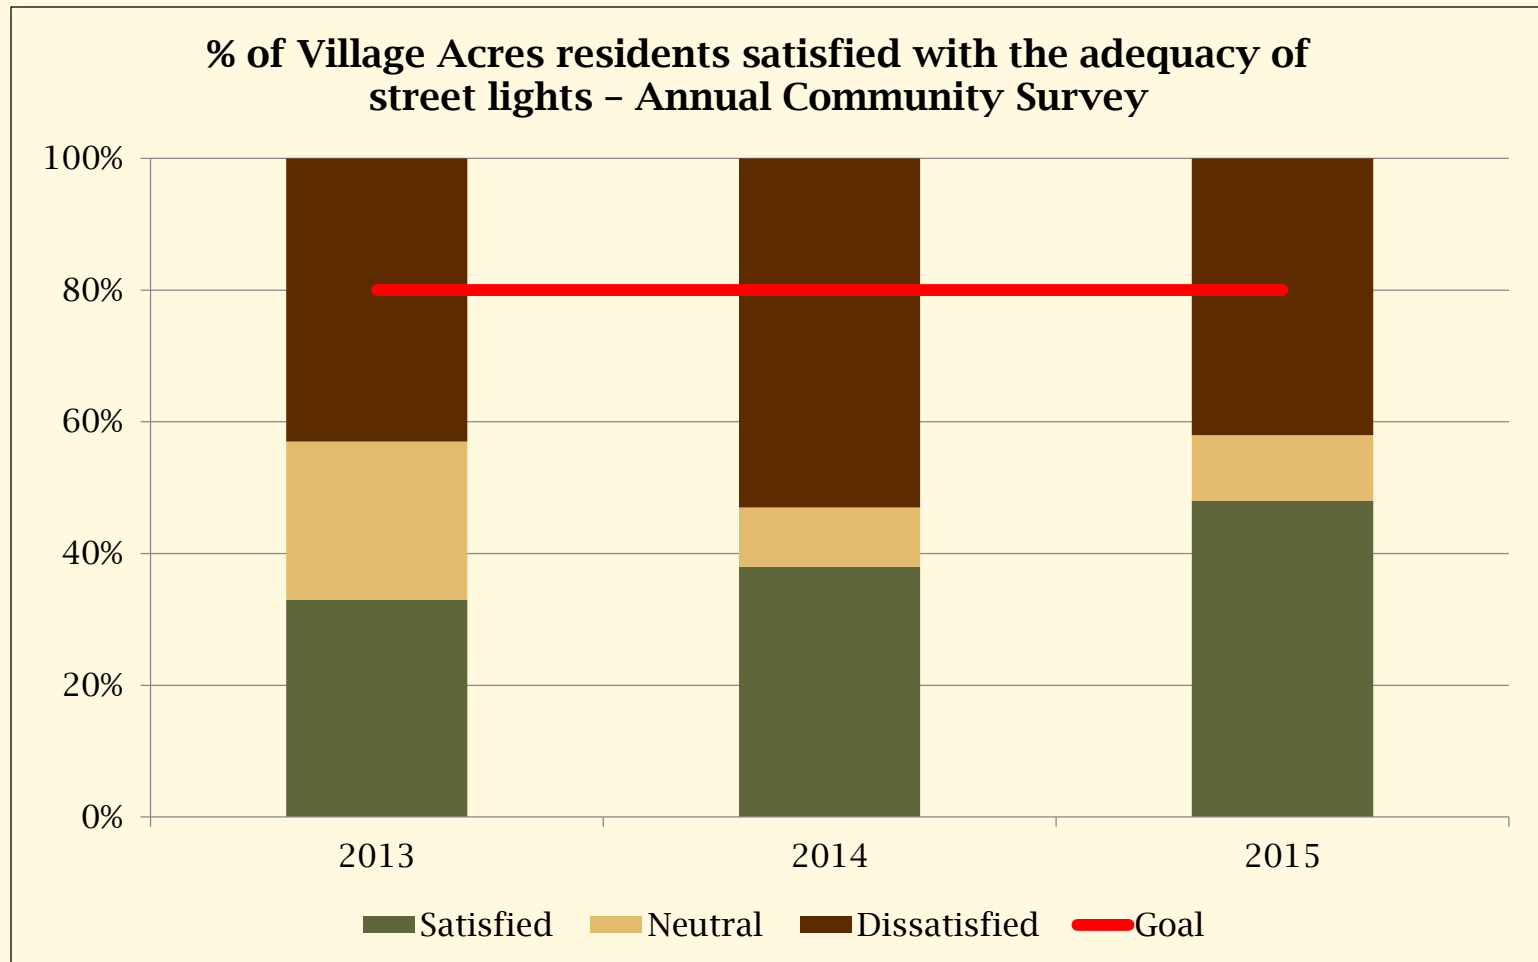

Why Sidewalks and Street Lights?

1. Village Acres residents have consistently expressed ***high levels of dissatisfaction with the availability of sidewalks and street lighting***
2. Sidewalks and street lighting are residents' top two ***priorities for Village capital improvements***
3. Open Village Hall topic indicated sidewalks (#2 priority) and street lighting (#4 priority) as actions the Village can take to ***improve the quality of neighborhoods***
4. Neighborhoods to target for improvements (based on the highest dissatisfaction levels) include:
 - ***Village Acres***
 - Pinehurst No. 6
 - Lake Pinehurst
 - Morganton/Monticello Road

Spring Lake Drive Sidewalk Project

Spring Lake Drive Sidewalk Project

- Identified in the Comprehensive Pedestrian Master Plan
- Map of proposed locations
- Specifications of sidewalks
- Construction timeline
- Longleaf Dr. as a potential location for future investment

Street Lighting in Village Acres

Street Lighting in Village Acres

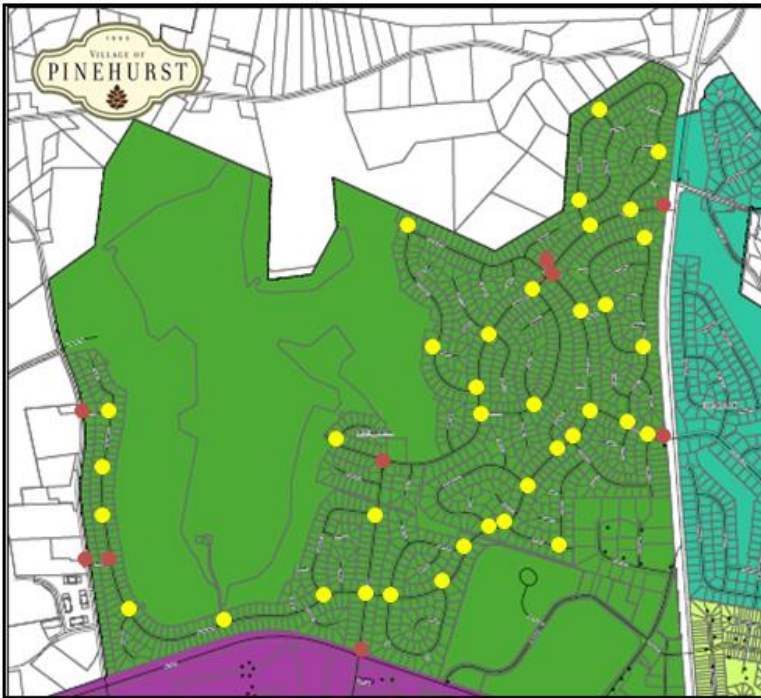

- Street lighting policy:
 - Shall be minimal in quantity, mounted on wooden poles at approximately 25 feet and 50W LED in residential areas
 - Limited to no more than one light at intersections of 2-lane collector roads
 - Mid-block placement is discouraged, but is allowed with a minimum of 150 feet separation between poles
- Review options for street lights:
 - # 1 - Maximum density
 - # 2 - Medium density
 - # 3 - Low density
 - # 4 - No change
- Please VOTE for your preferred density of street lighting
